

Indian Chamber of Commerce

## **Sustainability Innovation Summit 2019 - Theme: Renewable Energy**

18th September 2019, Hotel Trident, Hi Tech City | Hyderabad

### **Renewable Energy in India**

The Indian renewable energy sector is the fourth most attractive<sup>1</sup> renewable energy market in the world. As of October 2018, India ranked 5th in installed renewable energy capacity. According to 2018 Climate scope report India ranked second among the emerging economies to lead to transition to clean energy.

Installed renewable power generation capacity has increased at a fast pace over the past few years, posting a CAGR of 19.78 per cent between FY14–18. The focus of Government of India has shifted to clean energy after it ratified the Paris Agreement. With the increased support of government and improved economics, the sector has become attractive from investors perspective. As India looks to meet its energy demand on its own, which is expected to reach 15,820 TWh by 2040, renewable energy is set to play an important role.

### **Objectives**

The objective of the **Sustainability innovation Summit 2019 – Theme: Renewable Energy** is to present successful sustainable Renewable projects to a global audience and to demonstrate that for many environmental problems feasible solutions already exist. Projects submitted from over 29 states take part this year in the awards.

To create India's leading renewable energy country providing the most innovative clean energy solutions to Indian renewable energy Industry.

### **Participants:**

Participation is open to projects with focus on resource conservation, improving air and water quality, energy efficiency and renewable energies. But also projects that focus on the creation of awareness in these areas will be eligible to participate.

- Investors
- Project Mangers and Consultants
- Manufacturers/ Dealers/ Distributers
- Government Authorities
- Environmental managers and planners
- Renewable Energy companies
- Energy managers
- Green sources of electricity
- Reliable Power

- Green inventions
- Green Engineers consultancies
- State owned enterprises
- Regional transport authorities
- National transport authorities
- Developers and investors
- Statutory Authorities
- Non-Governmental Organizations
- Commercial Organizations
- Research, Education
- Financial Institutions
- Recycling Industry
- Every individual
- Private institution
- Public institution

**DELEGATE PARTICIPATION FEE**

Category	Registration Fees for Summit	Registration Fees for Summit and B2B
ICC Members	1000+18%GST	1500+18%GST
Non-ICC Members	1200+18%GST	2000+18%GST
