

INDIAN CHAMBER OF COMMERCE

3rd GEF 2020

Globalised Education Forum
Integrated Education: NEP implementation in
East & North East

15 + Eminent
Speakers

300 + Delegates

A Virtual Conference
28th July, Tuesday, 2020 | Timings 10 am to 4 pm

The Conference

The phenomenon of globalization, which transformed world trade, communications and economic relations in the latter part of the 20th Century, is having a similarly profound effect on education at the start of the 21st. Student options for higher education, in particular, are no longer constrained by national boundaries.

The demographic dividend that India can harness as the youngest nation of the world can be valuable for the country provided the ready-to-recruit cohort is trained on skills that could sustain them through the turbulent global changes that markets and industries are witnessing today. The rapid advancement of information technology and its cascade like IOT, AI and Robotics and globalization has led to major structural changes in the global economy and reorganization of multi-skill trained manpower. Nevertheless, there are still major requirements from the viewpoint of skilling for employability and emotional stability i.e. skills needed to support basic needs of life through hands on experience, real life practice and learning tools to economize earnings and time both.

The North East Region (NER) of India comprises the eight states of Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim and Tripura. While the Region is connected to the rest of India through a small 26 kms corridor, it shares 99% of its borders with the neighboring countries of Bangladesh, Myanmar, China, Nepal and Bhutan, depicting tremendous opportunities for border trade. In terms of education, the east and north east of India has significant potential. Prime Minister of India, Mr. Narendra Modi regards Northeast India as the 'Astalakshmi' and has awarded prime importance to its development by focusing on Road and Rail connectivity, IT connectivity, Energy, Industrial development and Education facilities.

Against this backdrop, the Indian Chamber of

Commerce is set to organize a virtual conference “3rd Globalised Education Forum 2020, A Virtual Conference on National Education Policy, implementation in East & North East, scheduled on 28th July, Tuesday, 2020, Timings 10 am to 4 pm”. The Forum aims to highlight and discuss Integrated Education Policy in context of the newly implemented National Education Policy.

The objective of this event is to spread awareness on the implementation of the National Education Policy and capture feedback from the educationists and their suggestions towards a realistic action plan in the North Eastern region. The objective is also to ensure focus on imparting higher education and skill development to the youth of this region so that they integrate themselves to the changing landscape of employment generation through technological innovation.

Summit Theme:

Integrated Education: NEP implementation in East & North East
